

## Position Available

### Project engineer for building and room acoustics (m/f/d)

GICON® - Grossmann Ingenieur Consult GmbH is looking for a committed, open-minded and motivated project engineer (m/f/d) for full-time employment at our Dresden location to strengthen the Environmental Management Department in the field of building and room acoustics.

GICON® - Grossmann Ingenieur Consult GmbH is part of the GICON® Group, a group of independent engineering and consulting companies. We provide our services primarily in the fields of plant and construction planning, environmental and approval planning, ecosystems, soil and water management, geotechnics and mining, and information technology. The GICON® Group employs over 350 permanent staff at locations throughout Germany and worldwide.

#### Belonging to your area of responsibility:

- Project management in the field of building acoustics
- (Preparation of sound insulation certificates according to DIN 4109, support in setting up a measuring point for building acoustic quality tests, consulting for new construction or renovation of rooms/buildings)
- Project processing in the field of room acoustics
- (Preparation of room acoustic plans according to DIN 18041, execution and evaluation of room acoustic measurements, consulting for new construction or renovation of rooms/buildings)
- Preparation of expert opinions
- Client consulting and preparation/participation in project meetings

#### You're a good fit for us if you:

- Have a degree in a relevant engineering science or physics (Dipl.-Ing./Master/Bachelor)
- Have professional experience with sound knowledge in the fields of building and room acoustics
- Contribute by working independently, conscientiously and systematically
- Have strong team and communication skills
- Have confident verbal and written expression
- Have extensive knowledge of German regulations

#### We offer you:

- An open corporate culture, in which great importance is attached to communication and transparency
- Personal and professional training and development opportunities within the group of companies
- An adequate remuneration framework
- A collegial working environment

#### Your application:

Have we aroused your interest? Then please send us your application documents in digital form as a .pdf document, stating your salary expectations and earliest possible starting date:
